

Hope all is well and you are not being too impacted by the current craziness. Knowing that you have a class coming up soon, we want to assure you that we are taking safety very seriously here.

- Our retail showroom is closed to the public
- There is at least a week between classes, and we are having the shop and all common areas deep cleaned frequently.
- We have added plexiglass barriers between benches
- We have added new large TVs to allow for close-up visuals from your bench with no gathering
- Masks are available
- Hand sanitizer is always available
- We are washing our hands frequently, and wearing gloves when appropriate
- We are maintaining social distance of 6 feet

plexiglass between benches

- We are limiting the workshop space to students and only a few essential employees.
- We are frequently disinfecting commonly-touched surfaces, tools and benches throughout the day.
- No hand shaking, and as usual...no politics. 😊

*new large TVs to allow for close-up visuals
with no need to gather closely*
